

Subject: Managerial Letter of Support for Hanan Owda and Teach Me Nursing

To Whom It May Concern,

I am writing to express my enthusiastic support for Hanan Owda, as well as Teach Me Nursing, and its potential to transform nursing education.

As the Nursing Manager at Acclaim Health, I have had the opportunity to witness firsthand Hanan's dedication to learning, implementation of expertise in teaching, and exceptional ability to problem solve through any challenge that presents in her way. Hanan actively engages in collaboration with peers and consistently implements best practice guidelines, having a positive impact on our facility. Given the increasing demands in healthcare and the need for skilled nursing professionals, this innovation is both timely and vital. Hanan's capability to lead and execute this innovation presents a unique opportunity not only for nursing education, but also for the broader healthcare community.

Teach Me Nursing's approach focuses on integrating critical and easily accessible information into practical aspects of nursing, enhancing patient care simulations and students' knowledge. I believe this innovative project will significantly improve the quality of nursing education and ultimately lead to better, safer patient outcomes.

I have been particularly impressed by the development of "The Dos and Don'ts of Nursing Practice" reference cards. Every nurse wears a badge to identify themselves, and the integration of these reference cards ensures that information is readily and easily accessible for nursing students, as well as new nurses. This innovation addresses a critical need in nursing education by providing students with realistic clinical expectations to ensure safety for their patients prior to entering their work environment.

Having no doubt about Hanan exceptional dedication, I wholeheartedly believe in the remarkable ability of this team to develop and execute their project successfully.

Sincerely,

Name: Dianne Luis
